

Water usage is a continuing issue in the Middle East. Whether searching for new sources for growing cities or for thirsty crops, Middle Eastern governments are on a difficult hunt to find enough water to meet everyone's needs. If you were a leader, what are two steps you would take to encourage your citizens to use less water in their daily lives?

Two steps that could be taken to reduce water usage and promote conservation are:

1. Provide incentives to households or companies who have reduced their water usage over time.
2. Reducing the cost of water conservation and recycling technologies.

These methods will be successful as companies and households can see reduced bills or other incentives if conservation methods are employed. Reducing the cost of conservation technologies ensures access to a wider section of the population.

Answer:

Two steps that could be taken to reduce water usage and promote conservation are:

1. Provide incentives to households or companies who have reduced their water usage over time.
2. Reducing the cost of water conservation and recycling technologies.

These methods will be successful as companies and households can see reduced bills or other incentives if conservation methods are employed. Reducing the cost of conservation technologies ensures access to a wider section of the population.

Explanation:

Write the following inequality in slope-intercept form. $-8x + 4y \geq -52$ A.) $y \leq 2x + 13$

B.) $y \geq 2x + 13$

C.) $y \leq 2x - 13$

D.) $y \geq 2x - 13$

An example of hydro energy is A. burning water.

B. a hydrogen farm

C. a hydroelectric dam

At most, Alana can spend \$40 on carnival tickets. Ride tickets cost \$4 each, and food tickets cost \$2 each. Alana buys at least 16 tickets. The system of inequalities represents the number of ride tickets, r , and the number of food tickets, f , she buys. $r + f \geq 16$

$$4r + 2f \leq 40$$

What is the maximum number of ride tickets she can buy?

Line segment SU is dilated to create S'U' using the dilation rule DQ,2.5. What is the distance, x, between points U' and U? 4 units

4.8 units

6 units

10 units

The Nuremberg Trials lasted for _____ year(s), and _____ German high officials were sentenced to death. 1} 1, 2, 3
2} 11, 12, 10

Given a solution with a hydroxide ion concentration $OH^- = 2.73 \times 10^{-5}$ what is the pH

Fill in the blank with the future tense of the verb in parentheses. Mis amigos no _____ ir conmigo. (querer)

Answer for Blank 1:

Question 6 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Ustedes _____ hambre a las ocho. (tener)

Answer for Blank 1:

Question 7 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Mi libro no _____ en la mochila. (caber)

Answer for Blank 1:

Question 8 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Nosotros no _____ ir al cine esta noche. (querer)

Answer for Blank 1:

Question 9 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Yo _____ a las ocho. (salir)

Answer for Blank 1:

Question 10 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Usted _____ de la casa temprano. (salir)

Answer for Blank 1:

Question 11 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Ustedes _____ al cine. (venir)

Answer for Blank 1:

Question 12 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Usted le _____ la verdad a la profesora. (decir)

Answer for Blank 1:

Question 13 (Fill-In-The-Blank Worth 1 points)

Fill in the blank with the future tense of the verb in parentheses.

Mis amigos _____ la ropa en la maleta. (poner)

Answer for Blank 1:

Linda wrote 4.5 pages of her science report in one hour. What was her writing rate in pages per minute?

Marketing by a service firm to effectively train and motivate its customer-contact employees and all the supporting service people to work as a team to provide customer satisfaction is called _____ marketing.

When magnesium carbonate, MgCO_2 , reacts with nitric acid, HNO_3 , magnesium nitrate and carbonic acid form. Carbonic acid then breaks down into water and carbon dioxide. What two types of reactions take place in this process?

What are Uganda's greatest strengths?

Which sentence is an example of an objective summary from Cynthia Crossen's "A Culinary Wasteland"? A. Furthermore, Mr. Schlosser's appraisal is not comprehensive but a hodgepodge of impressions, statistics, anecdotes and prejudices.

B. As a stickler about statistics, I was disturbed by Mr. Schlosser's cavalier manipulation of data, which produced some startling — and, frankly, unbelievable — "facts."

C. Americans are addicted to cheap, bad food, he argues, and like all addictions, this one exacts broad and often unseen costs from the community.

D. Taking individual responsibility for one's impact on the global economy is far more complicated than just saying no to fast food, as Mr. Schlosser advises.

John Locke helped develop the idea of a social contract between citizens and the monarchy.

church.

government.
